

The Innov-is 1500D

Disney

With the Brother Innov-is 1500D you can create high quality embroidery designs and sewing projects quickly and easily.

- 260mm x 160mm embroidery area
- 148 built-in embroidery designs
- Large sewing area
- 100's of stitch combinations
- 800 stitches per minute
- USB port for PC connection

Innov-is 1500D

For your embroidery needs.

Large embroidery area

The Innov-is 1500D has a large embroidery area so you can create even bigger and more intricate designs. Its flexible workspace lets you create elaborate embroidery on larger projects, giving you extra convenience as you will not have to re-hoop.

- 260mm x 160mm embroidery area
- Flexible workspace

Instantly import/export patterns via PC or Brother Memory Card

We've even made it easy for you to import and export your own patterns. Just insert an embroidery memory card or connect the Innov-is 1500D to your PC via the USB port and send your embroidery design directly to the machine.

- USB port for PC connection (cable supplied)
- With the optional Brother PE design software you can convert numerous image file types into stitch data format (PES)

Extensive choice of built-in designs

It's never been easier to start your own project. Brother's Innov-is 1500D comes with hundreds of built-in designs including a range of exclusive built-in ©Disney characters and monogramming font styles. Simply select your favourites and combine them with other designs to create your own unique style.

- A total of 148 built-in embroidery designs, including 76 built-in ©Disney characters
- 8 font styles

Clear, user-friendly backlit touch screen LCD

Now you can create sophisticated layouts with ease. The clear display has improved viewing angles so you can easily see a full preview of your chosen design. Simply use the touch screen panel to edit your pattern. Create mirror images, rotate, enlarge, reduce, space characters or change colours - it's up to you.

- 240 x 320dpi resolution LCD
- Embroidery edit feature

Compatible with other manufacturers thread

In addition to the Brother thread chart, the Innov-is 1500D recognises threads from four manufacturers. When your pattern asks for a particular colour thread, just select the name of your manufacturer's thread from the information displayed on the touch screen LCD and the corresponding colour will be displayed.

- Built-in competitor thread charts

Fast, accurate embroidery

The Innov-is 1500D has a high maximum embroidery speed, so you can create large areas of complicated embroidery in a short period of time. Its slide-on mechanism lets you quickly attach and remove the embroidery frame whilst its automatic thread trimmer instantly cuts both top and bottom threads to save you time.

- Up to 800 stitches per minute
- Automatic thread trimmer

New improved frames

When starting your embroidery project it is important to ensure your material is perfectly positioned and secured tightly in the hoop. The embroidery frames supplied with the Innov-is 1500D have a new design with an angled screw so you can tighten your frame easily, helping to keep your material firmly in place.

- New angled tightening screw
- Choice of 4 frames available (2 frames supplied as standard 260mm x 160mm & 180mm x 130mm)

* Designs featured on the cushions were produced with designs from embroidery card No.45 'Fancy Work'.

Speed control customised for zigzag width (in sewing mode)

- Slide control adjusts speed from slow to fast
- Can be programmed to alter stitch width

Automatic threading system

Deluxe system automatically threads the needle.

Large embroidery area 260mm x 160mm

More space for even bigger designs.

7 point feed dog (in sewing mode)

Contains extra teeth for smoother feeding, helping to create superior stitch quality.

Free Arm

Free arm conversion for awkward items such as collars and cuffs.

Presser foot lever button

Lifts the presser foot up for you.

Trimmer button

Automatically cuts the top and bottom threads.

Needle position button

Raises or lowers the needle.

Reverse/reinforcement button

Automatically sews 4 reinforcement stitches. Sews straight and reverse zigzag stitches at low speed.

Start/stop LED button

Red/green lights indicate when the machine is ready to sew.

Memory card slot

Instantly transfers embroidery patterns from memory card to your machine.

USB port for PC connection

Simply transfer stored embroidery patterns from your PC to your machine.

Knee lift (in sewing mode)

Free up your hands by using your knee to lift the presser foot. Ideal for working on large projects such as quilts.

Back lit touch-screen LCD

- 240 x 320dpi resolution
- Improved visibility angles
- Embroidery edit screen
- Built-in tutorials
- Built-in sewing references
- Customised settings
- Available in 12 languages

For your sewing needs.

Select the best stitch every time

With hundreds of built-in stitch combinations, including a range of utility stitches from blind hems to complex decorative patterns, the Innov-is 1500D lets you select the right stitch for every application.

- 100's of built-in stitch combinations
- Includes 12 styles of automatic buttonhole, 239 decorative stitches and alphabet

Smooth, multi-directional feed

The 7 point feed enables all fabrics to feed smoothly and efficiently. Because it has a multi-functional mechanism, you can sew straight, stitch in different directions and even zigzag without moving the fabric.

- 7 point feed
- Stitches in 8 different directions

User-friendly back lit touch screen LCD

You can view and change your stitch settings before you start sewing, saving you time and effort. The Innov-is 1500D has a large back lit touch screen LCD with tutorials so you can get expert advice every step of the way.

- Sewing tutorials

Fast spool changeover

The automatic thread cutter cuts upper and lower threads at the end of each sewing task so you can quickly start sewing again or change to another project.

- Automatic Thread Cutter

Simple Control

The customised speed control allows you to program the stitch width so you can create your own zigzag patterns while you sew.

- Programmable speed control for zigzag width

Large workspace and freedom to move

The Innov-is 1500D has an extra-large sewing bed so you can manipulate larger projects with ease. Use the knee lift to automatically raise the presser foot and leave your hands free to work the fabric.

- 210mm x 112mm
- Ergonomically designed knee lift

Easy threading

The Innov-is 1500D has a deluxe automatic needle threading system so you can effortlessly thread up the machine and needle.

- Deluxe automatic needle threading system

Improved LCD visibility

The clear display has improved viewing angles so you can see a full preview of your chosen stitch, and easily customise your settings.

- Improved viewing angles

Sew any fabric, thick or thin

'Automatic Thread Tension' senses the thickness of your fabric for you and instantly adjusts to the most appropriate thread tension. Perfect for difficult fabrics.

- Intelligent fabric thickness sensor
- Automatic Thread Tension

Convenient drop in bobbin

Simply drop in the bobbin and start sewing. The bobbin's transparent cover lets you know when your thread is running low.

- Transparent cover
- Quick, easy threading

Non-stop sewing

Thanks to the machine being equipped with two motors this feature lets you wind a new bobbin while you continue to sew. Your designs will take even less time to finish.

- Independent bobbin winder

Super-fast sewing

The Innov-is 1500D has an extremely fast sewing speed, so you can quickly finish a project and move on to the next one.

- 800 stitches per minute

Difficult fabrics made easy

Adjust the pressure on the machine's presser foot and you can even sew difficult fabrics or hem thick seams with minimum hassle.

- Adjustable presser foot
- 3 clearance levels

Hassle-free reverse and reinforcement

The Innov-is 1500D automatically sews in reverse and automatically controls the number of reinforcement stitches, leaving you free to concentrate on the project rather than the stitches.

- Automatically sews 4 reinforcement stitches
- Sews straight and reverse zigzag at low speed

One touch needle control

Now you can raise and lower the needle at the touch of button. Rotate your fabric freely or use this feature to create detailed stitches in smaller areas.

- Touch button needle position selection

Brighter workspace

The Innov-is 1500D has 5 bright built-in lights that illuminate key areas so you can work with dark fabrics more easily.

- 5 daytime sewing lights

Innov-is 1500D

What's in the box?

The Innov-is 1500D comes complete with a host of accessories that are stored in the flatbed attachment, so you can keep them neatly packed away until you need to use them.

FREE 2 year warranty

Unlike many other sewing machines, Brother's Innov-is 1500D comes complete with manufacturer's 2 year warranty for your complete peace of mind.

FREE subscription to Sew What?

When you purchase your new Innov-is 1500D you'll receive the opportunity to register for your free subscription to Brother's Sew What? Magazine. This sewing and embroidery magazine includes patterns and top tips on how to get the most from your machine.

FREE software upgrades

Brother believe on passing all possible benefits to our customers, that's why as we make new developments we allow our machines to be upgraded with the latest software technology. So no matter how old your machine is we can always pass on newly incorporated software features for your product. Just visit www.brother.com to download the latest software.
