DCP-J4110DW Technical Specifications

As an integral model in the Print 3.0 range, the DCP-J4110DW is one of our smallest ever inkjet all-in-ones to offer up to A3 printing.

Print 3.0 doesn't mean one upgrade, it means everything is upgraded. Bursting with new technology the DCP-J4110DW is packed full of business friendly features in a sleek, compact machine, to ensure you get the most from your office space.

The DCP-J4110DW utilises landscape print technology, feeding through the printer in a landscape format to offer you fast print speeds in a lower profile machine. Print speeds of up to 18ipm (mono) and 16ipm (colour) mean you will not be kept waiting for your documents.

The DCP-J4110DW offers a number of cost saving functions, including automatic 2-sided printing to save paper, and high yield ink cartridges, with yields of up to 1,200 pages for a lower cost per page. All this is achieved without compromising on print quality, ensuring you can produce professional looking documents.

Print 3.0 means being able to print from more places and more devices. Print directly from your mobile device with the Brother iPrint&Scan app or wirelessly using Apple AirPrint or Google Cloud Print™. You can also connect directly to the web from your printer in order to scan to or print from Facebook™, FLICKR®, Dropbox, PICASA™ and EVERNOTE™.

All Brother inkjet multifunctional printers incorporate a four individual inks system meaning that you only replace the ink which runs out, reducing waste and saving you money. The DCP-J4110DW complies with the strict ENERGY STAR environmental standards and ensures low energy consumption, low noise levels and a recycle-friendly design.
