

# Design 'n' Craft project booklet

Create in full colour with  
the Design 'n' Craft printer

Beautiful creations in partnership  
with Rosemary Merry

Thank you for buying our Design n Craft printer.  
We hope you're enjoying figuring out all it has to offer including our free Brother Color Label Editor app.  
To help give you some ideas of what you can do with the Design n Craft printer we have worked with TV presenter and crafter Rosemary Merry.

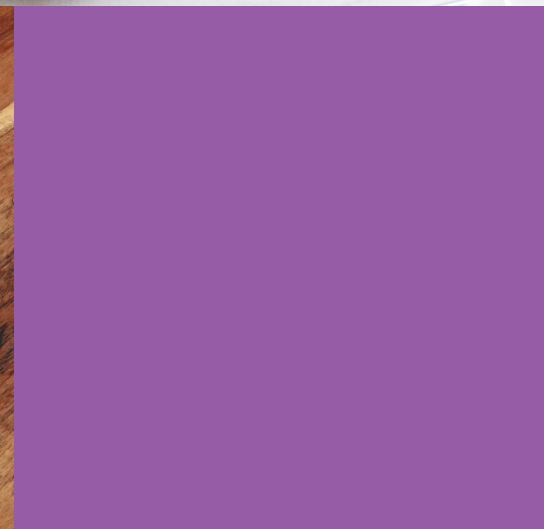

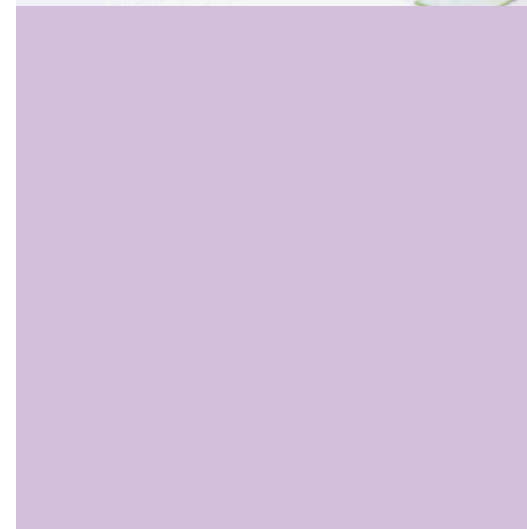

Rosemary has worked with us for a couple of years now demonstrating our product on TV and online, while also loving the product herself and being a bit of an ambassador for all it can do.

We hope you find this booklet useful and we'd love to see some of your creations. When you get started, please tag us on Instagram, Pinterest and Facebook - search for Brother UK.

*Thank you*

Download the Color Label Editor app now

# Step-by-step

Follow the steps below to create your bookmark.

1 Choose 50mm tape size and alter the work space length to approximately 145mm

2 Choose, rotate and resize photo

3 Add a background and a frame

4 Add text, change the font, rotate, resize and reposition

5 Print, peel off the backing and add to co-ordinating card stock

6 Punch a hole in the top and tie a length of twine through it

## Project 1 Bookmark

### Materials:

- 50mm tape
- Card stock
- Twine
- Hole punch

## Project 2 Save the date

### Materials:

- 50mm tape
- Card stock
- Magnetic sheet

## Step-by-step

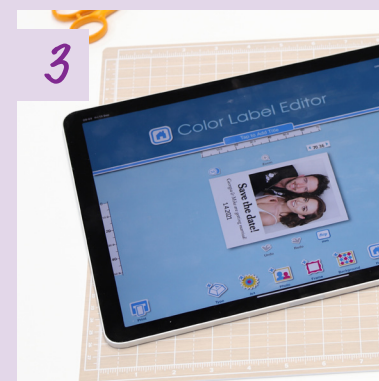

Follow the steps below to create your 'Save the date'.

Choose 50mm tape size and alter the work space length to approximately 70mm

Choose, rotate and resize photo

Add first line of text, change the font, resize and reposition. Repeat on the other two lines using different fonts and sizes

Print, peel off the backing and adhere to card stock

Adhere this to a piece of magnetic sheet and trim

# Step-by-step

Follow the steps below to create your gift tag.

Prepare the tag

Create three faux washi tape border strips, approximately 70mm long. Create one for each of the different size tape widths and on the widest one type someone's name

Print all three and adhere them to the white tag, trimming the ends if necessary

Glue the white tag to a larger card stock layer

Punch a hole in the top centre and add the ribbon

## Materials:

- 9mm, 19mm and 25mm tapes
- Card stock
- Glue
- Ribbon
- Hole punch

## Project 3

### Gift tag

# Step-by-step

Follow the steps below to create your notebook.

With the 50mm tape installed and chosen on your design space, set the length to match your notebook size

Create a collage of photos, rotating, resizing and using the 'move to front' and 'move to back' feature, and then print

Using the 50mm roll again choose an image from one of the 'Art' categories. Resize, add text and then print leaving the backing paper in place

Cut this out

Create and print two 9mm border strips with a background design

Adhere all these to your notebook cover

## Materials:

- 9mm and 50mm tapes
- Notebook
- Scissors

## Project 4 Notebook

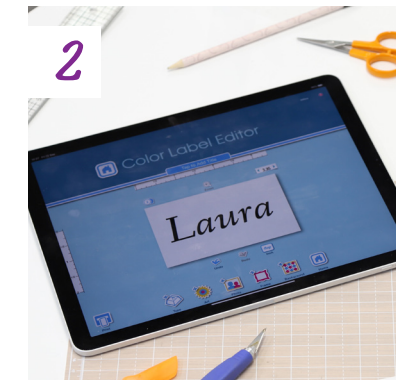

# Step-by-step

Follow the steps below to create your placecard.

Create a folded place card and on the app select the the 50mm tape, adjust your work space to fit your card

Add your text, choose a font and alter the size and position

Add a frame to the outside edge and then print

Adhere to the folded placecard

Choose, resize and print a butterfly from the Easter category in 'Art'

Cut this out, adhere to the placecard overlapping the fold and use your craft knife and mat to cut around the part of the butterfly above the fold in order to create a pop-up effect

## Project 5 Placecard

### Materials:

- 50mm tape
- Card stock
- Craft knife
- Cutting mat
- Scissors

## Project 6 Birthday card

### Materials:

- Folded greetings card
- Other card stock; plain and special effect
- 19mm and 50mm tapes
- Twine
- 3D foam tape pads
- Glue
- Scissors

## Step-by-step

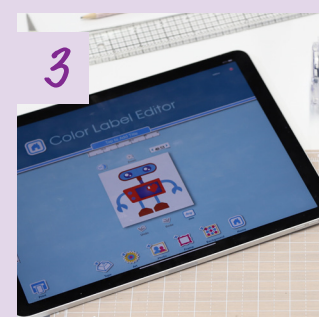

Follow the steps below to create your birthday card.

Select 50mm tape size and alter your work space to fit your card height

Design a random border strip, using images from 'Art', resizing, rotating, repositioning and duplicating using the 'stamp' function. Print your design

Choose a random image from the border strip. Enlarge it, print it and cut it out

Create a large number, rotating and changing the colour to fit your theme before printing and cutting out

Adhere the border strip to special effects card stock and then to your card

Remove the backing paper from the large number, adhere the cut-out robot image to the back, peeking out, and then lay onto your card

Create a greeting strip with the 19mm tape and your chosen background. Print and layer onto co-ordinating card stock and then to your card

Finish with a twine bow around the top of the card

# Step-by-step

Follow the steps below to create your bunting.

From 4" x 6" card stock pieces create bunting shaped cards

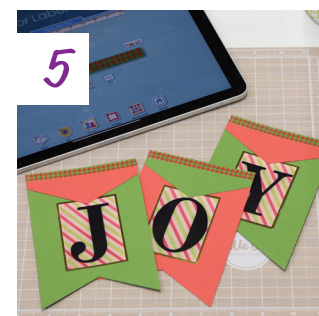

Using the 50mm tape, create your monogram letter blocks with a striped background frame from 'Christmas' and Old Standard TT Bold Font

Select, resize, print and cut out various images from 'Christmas' with the 50mm tape

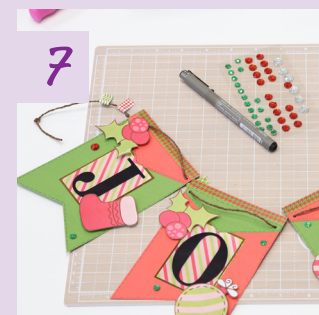

Use the 9mm tape to create patterned border strips for the bunting pieces and for on the twine. Adhere the border strips to the top of the bunting card stock pieces

Mount the monogram frames to metallic card. Trim and adhere to the bunting. Glue the card stock offcuts (from step 1) to directly underneath the 9mm tape strips

Leave backing paper on the cut out images and use 3D foam pads to attach them to the bunting

Punch holes in the top corners of the bunting, thread twine through and add some faux washi border pieces, cut with a chevron shaped end to the twine. Finish with adhesive jewel gems and a faux stitched pen border

## Materials:

- Card stock
- Metallic card stock
- Twine
- 9mm and 50mm tapes
- 3D foam pads
- Glue
- Adhesive gems
- Scissors
- Fine black pen
- Hole punch

## Project 7 Bunting

# Step-by-step

Follow the steps below to create your Easter basket.

Cut a piece of card stock 24cm x 24cm and score both ways at 80mm and 160mm. Cut as shown in the photo

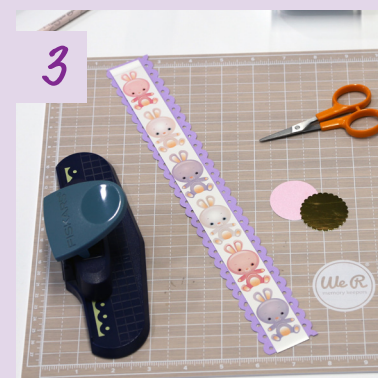

Cut another piece of card stock 45mm, and as long as you like, border punch each long edge to form a handle

## Project 8 Easter basket

### Materials:

- 25mm and 50mm tapes
- Card stock
- Scissors
- Paper trimmer/scorer
- Glue dots
- Glue
- Circle/scalloped circle punch/die
- Scalloped square die
- Twine

Use the 25mm tape to design a bunny border from the 'Happy Easter' category in 'Art', and 'Hoppy Easter' circle greeting from 'Circle Frames'. Print and cut out the circle greeting. Remove backing and adhere to punched or die cut circles

Use the 50mm tape to design and print four 50mm squares with a random bunny background and two 'bow' images from 'Easter'. Print and cut out the bows

Adhere the bunny border to the handle and the bunny squares to some precut/die-cut co-ordinating layers and then to the appropriate places on the basket piece

Construct the basket, add handle, bows, and the circle greeting hanging on twine as a tag

# Step-by-step

Follow the steps below to create your birthday card

Design and print out faux washi tape strips using the 9mm, 12mm and 19mm tape widths and add a text greeting to one of the widest strips

Start adhering these pieces from the bottom left of your card stock layer, piece, trim and reserve the excess pieces. Build up your design as desired

Choose and print out a number of flowers from 'Detailed Flowers' in 'Art' on the 25mm tape

Cut out and cluster toward the top left of the card stock

Adhere this layer to your base layer and embellish flower centres with glitter glue

## Project 9 Birthday card

### Materials:

- 9mm, 12mm, 19mm and 25mm tapes
- Folded card
- Card stock
- Scissors
- Glue
- Glitter glue

# Step-by-step

Follow the steps below to create your baby mini book.

1 Cut two chipboard pieces to 70mm x 195mm and cover both with decorative paper

2 Cut decorative paper to 256mm x 192mm and score the long edge at 64mm, 128mm and 192mm. Cut the short edge at 64mm and 128mm. Cut two slits and fold back up as shown in the photo

3 Glue together the two pieces at the inside front and back cover, sandwiching a piece of ribbon each side to be tied to keep the book closed

4 Cut and glue down decorative paper squares to enhance the inside of the book

5 Design various background pieces, photo squares, images to cut out and faux Washi tape strips, some holding baby's details such as name, date of birth and weight

6 Decorate the mini book with these pieces using 3D foam pads to raise some to give dimension

## Materials:

- Chipboard
- Decorative paper
- Card stock
- 12mm, 19mm and 50mm tapes
- Glue
- Craft knife
- Cutting mat
- Paper trimmer/scorer
- Ribbon
