# 1000 Mono Laser Series

**Compact, affordable and reliable, these mono laser printers are perfect for home use, where volumes are low and space is limited.**

## Perfect for

- Printing up to 500 pages per month
- Sharing with up to 2 users
- A4 print
- Small spaces, due to compact, space-saving design
- Small/home office

## Supplies

### Standard Toner

TN-1050 - 1,000 pages

### Drum Unit

DR-1050 - 10,000 pages

## What's in the box

700 page toner cartridge, DR-1050 drum unit, power supply cord, driver software for Windows, quick set-up guide. PC interface cable NOT included.

## Range Specification

### Print Speed

20ppm mono

### Paper Input

Standard tray - 150 sheets up to A4

Manual feed slot - 1 sheet up to A4

### Paper Output

50 sheets

### Media Weights

Standard tray: 65 -105 g/m<sup>2</sup>

### Media Sizes: Standard Tray

A4, letter

### 2-Sided Print

Manual 2-sided print

### Print Resolution

600 x 600dpi

### Printer Language

GDI

### Connectivity

USB

### Power Consumption

Operating: 380 W

Sleep Mode: 0.7 W

Ready: 40 W

Off: 0.28 W

High quality  
mono print

Separate toner and drum unit  
to reduce running costs

150 sheet  
paper capacity

# Solutions

## Printing and scanning from your mobile device

*Life moves pretty quickly these days. But thanks to Brother's range of well-connected devices, it's now easy to keep up. Print directly from your smartphone or tablet, or scan back to your printer, to view and store documents on the move. Simply connect over a wireless network - or via NFC\* and you're ready to go.*

## Mobile Print and Scan

There's no need to rely on a mountain of cables to get your important printing and scanning done. Wireless cloud and mobile connectivity means documents are available at the touch of a button, wherever you are.

## Apple AirPrint

Apple AirPrint makes printing from Apple devices easy and straightforward. All you need is a compatible Apple iOS device that supports this feature.

## Google Cloud Print

Connect your Brother printer to the web using Google Cloud Print and open up a world of smartphone and tablet printing possibilities.

## Mopria

Provides intuitive, simple wireless printing from Android smartphones and tablets.

## Cortado

Lets Apple iOS, Android and BlackBerry mobile device users print wirelessly whenever they're connected to the same network as their compatible printer.

## NFC\*

This capability automatically establishes a direct connection between your NFC enabled smartphone or tablet and an NFC compatible Brother device. You can print or scan using the Brother iPrint&Scan app without connecting to a wireless network or entering any passwords. (selected models only)

## iPrint&Scan App

Our dedicated app is easy to-use and is available for Apple, Android (inc Kindle Fire) and Windows mobile devices, allowing you to print from and scan to your mobile device, ready to share online.

## Brother Print Service Plugin

This useful app allows you to print directly from your Android device (Android 5.0 or later)

\* selected models only

# Connecting to Cloud services

*Many Brother devices have innovative web connect features. These features allow you to upload documents or photos from a scanner or memory card, or print documents directly from popular online storage sites.*

### Google Drive™

Lets you store and access your documents from almost anywhere in the world. With Google apps for work, you can create, share and collaborate on files with others.

### Dropbox

Dropbox for business enables access to photos, documents and videos from practically any internet-connected computer, laptop, smartphone or tablet.

### Evernote®

Enables note taking and archiving of the important things from your everyday life. It gives you access to documents from virtually anywhere in the world using any internet-connected computer or mobile device.

### Onedrive

OneDrive for business lets you save and access photos and documents from virtually any internet-connected computer, laptop, smartphone or tablet.

### Box

Box for business allows you to access photos and documents from nearly any internet-connected computer, laptop, smartphone or tablet.

### Onenote

OneNote enables note taking and archiving of the important things from your everyday life. It gives you access to documents from almost anywhere in the world using any internet-connected computer or mobile device.

# Brother Labelling Apps

*Convenient and easy-to-use, Brother labelling apps connect your mobile devices to compatible Brother label printers wirelessly.*

**Download the free  
Brother P-touch  
Design&Print app**

To explore the full range of design options for your custom labels, simply search “Design&Print” in the App Store or Google Play Store and start creating with your P-touch Cube labelling machine.

## iPrint&Label

Brother's iPrint&Label app is free and enables you to easily and conveniently print labels from your Apple® iPhone®, iPad®, iPod touch® or Android™ mobile device on your wireless network.

## P-touch Software

P-touch Editor software makes it easy to design professional labels which include images, logos, barcodes and frames. The Microsoft Office add-in lets you highlight, click and print right from within Word, Excel or Outlook, allowing you to save time and reduce errors by importing data than individually typing text. The interface provides access to standard or custom templates which means it takes just seconds to design and print your label.

## Cable Label

Quickly and conveniently design labels with a smartphone or tablet and print on our wireless label printers. Templates include cable flag, cable wrap, punch down block, patch panel and compliant wiring regulation templates for electricians and installers.

## Mobile Transfer App

Unleash your creativity to create your bespoke labels using the P-touch Design&Print app. Available now and free to download for Android and iOS devices. Add a fun touch with over 1000 symbols and emojis, 23 font styles and 61 frames to choose from the applications are endless.

## Software Development Kits

With document and label apps for PCs or mobile devices, Brother has a whole host of software development kits (SDKs) to integrate the Brother product range into your own applications, you can choose the best option for all your printing needs. System integrators and software developers can now take advantage of various options which work directly within their own apps and software. For more information, please visit <http://www.brother.eu/developer>

# Managed Print Services

## Experience the difference with Brother's Managed Print Service (MPS)

Brother has a long and successful heritage with SMBs and we've used this experience to build our MPS solution from the ground up. It's MPS from Brother, by Brother, using all our own hardware and software. This, combined with our bespoke service approach, will help you build stronger relationships and grow your contracts.

## We play to your strengths

We understand that you have your own unique skill set and way of working, so we'll integrate our solution with the services you want to carry out yourself.

You may choose to deliver break and fix services on behalf of Brother or you may want Brother to provide installation services or other items like print assessments.

Most importantly your customer remains YOUR customer – unlike other providers, we'll never go direct to the end user. We'll be at your side all the way, with the support you need to make the most of MPS.

## It's a simple, effective sell for you

Our comprehensive packages include everything from an initial print assessment through to repairs and recycling, helping your customers increase efficiency and productivity, while eliminating hidden costs.

See this icon, this product is suitable for a Brother Managed Print contract.

Brother will ensure you have everything you need to make Managed Print Services a success.

- Our unique approach keeps you in control of supplying managed print services to your customers
- Your customers will enjoy a print solution that will increase efficiency and productivity
- You and your business will reap the benefits of enhanced customer loyalty and guaranteed margin from contractual sales.

Save time.  
Save money.  
**BOOST**  
PRODUCTIVITY.

**If you'd like to learn more about how you can make your customers printing more efficient and to start selling MPS today, speak to your Brother Account Manager.**

# AiRScouter 300 series

**An advanced head-mounted display – which puts high definition content where it's most convenient – directly in front of your eye. All three models include:**

- IP54 dust and water resistant rating
- Lightweight flexi-arm viewfinder
- Hdmi or hdsdi displaying up to 1080p resolution

## **WD-370B Broadcasting head-mounted display**

- 1080p input and 720p output resolution
- HD-SDI connectivity
- Widescreen 25.6° field of view
- Built-in rechargeable battery
- Light reducing eyecup and water-resistant view finder
- Monocolour mode to avoid colour breaking
- Ideal for: Broadcasting and cinematography.

\*3G SDI input not supported

## **WD-360B Professional head-mounted display**

- 1080p input and 720p output resolution
- HDMI plug and play connection
- Connect to drones, tablets and smartphones
- Built-in rechargeable battery
- 5 levels of brightness plus water and dust resistance
- Ideal for: Aerial photography, filming and surveillance, agriculture, broadcasting and cinematography, emergency services and 3D scanning.

## **WD-350B Compact head-mounted display**

- 720p input and output resolution
- HDMI plug and play connection
- Connect to drones, tablets and smartphones
- Compact control box allows for an external battery
- Ideal for: Aerial photography, filming and surveillance and agriculture.

**AiRScouter**

A uniquely adjustable HD head-mounted display

# Supplies

# Brother Genuine Supplies

## Brother Printers + Brother Supplies

**Our printers and consumables are designed to work together**

When your customer has invested in a quality printer, whether it's vibrant colour or crisp mono, it makes sense to choose inks, toners and paper of a similarly high standard. Genuine Brother Original Supplies are made with the customer in mind.

Brother P-touch laminated labels have been designed to last, wherever you use them.

*Whether you need a professional labelling solution for the office, industry or home, Brother P-touch laminated labels have been designed with you in mind. We've thought about exactly when, where and how you might need to use our labels and put them through a series of rigorous tests, which means that even when they're exposed to heavy abrasion, heat, cold, sunshine, water and chemicals, our labels have been designed to last.*

Unlike ordinary labels, our laminated tape technology ensures that a layer of super-clear polyethylene laminate protects your text. Brother P-touch laminated TZe tapes consist of six layers of materials, resulting in a thin, extremely strong label.
